

FAQs

- Q: Who votes on September 30th?**
A: The Colorado Republican Committee – CRC Voting Members
- Q: What are the costs; who will pay them?**
A: The anticipated costs are minimal. The local elections will be conducted using volunteers. The State GOP will help with some costs.
- Q: Will the counties know what to do?**
A: Yes, the State GOP will have teams conducting extensive training.
- Q: How will absentee and overseas military ballots be handled?**
A: They will be accommodated through an email ballot.
- Q: How will we get enough volunteers?**
A: Republican Party members will staff our own elections because they know the importance of this process.

Please urge your GOP CRC members to vote **YES** on the Great Colorado Opt-Out measure.

Colorado GOP - Taking back the State

- Bonus Members and Congressional District Chairmen
- RNC Committeeman and Committeewoman
- US Senators and Congressmen
- State Representatives and Senators and District Attorneys
- State Officials (Governor, Lieutenant Governor, Secretary of State, State Treasurer, Attorney General, State Board of Regents, and The State Board of Education)

REPUBLICANS

Here's a Providential Opportunity to
Keep the Republic!!

THIS is the

GREAT COLORADO OPT-OUT

of the Unconstitutional
Open Primary Election

We ask that you urge your Colorado Republican Committee (CRC) Members to vote **YES** on the Opt-Out! This removes the Republican Party from Primaries open to unaffiliated voters and controlled by non-GOP entities.

Self-Governed Elections

Why Opt-Out?

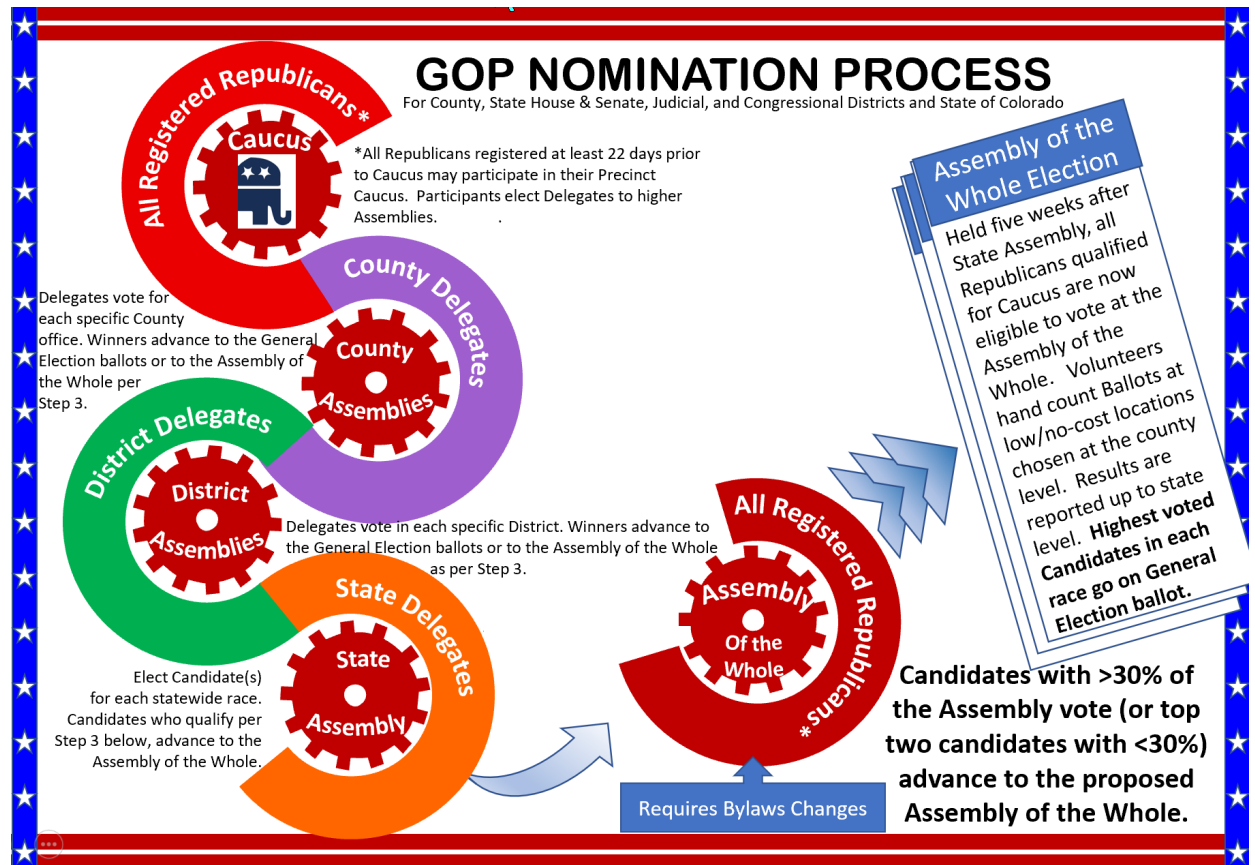

Our forefathers always intended for American Citizens to run their own elections. Americans gave that responsibility over to centralized government control. Consequently, nearly every area of our lives is governed by people who cannot be verified as having been honestly elected.

OPTING OUT is step one to regaining control of our elections and returning to our founder's intent.

Proposition 108, (passed in 2016), opened the Republican and Democrat Primary Elections to voters who did not affiliate with either. The opt-out clause was added to make the law appear constitutional. A lawsuit is being filed to prove it is not constitutional, but that will take time.

Here's what we gain by opting out now...

- Republican owned and controlled processes to nominate General Election Candidates.
- Only Republicans voting – Unaffiliated voters cannot skew our candidate choices.
- No Petition-On Candidates at any level.
- An Assembly of the Whole Election will be added so no Republican is disenfranchised from the nomination process.
- Promotes in-person voting with valid photo ID.
- Only Republican Teller Committees hand-counting paper ballots in an open, verifiable, and transparent process. NO machines.

THIS is the GREAT COLORADO OPT-OUT of the State-Run Primary Election

STEP 1

CRC votes to opt-out. CO law demands over 75% YES votes from the entire committee. If opt-out vote fails, the unconstitutional open Primary Election process continues with state-run black box elections.

STEP 2

State GOP helps Counties prepare for a successful Caucus and Assembly nomination process with training and resources. The Caucuses and all Assemblies held as usual.

STEP 3

Candidates with over 30% of the Delegate's votes at their Assembly, or the top two Candidates with less than 30%, advance to the proposed Assembly of the Whole.

STEP 4

The Assembly of the Whole elections, held 5 weeks after Assemblies, are conducted by each County Party. All Caucus-eligible Republicans can vote. Winners of each GOP Assembly of the Whole advance to the General Election.
